

## Bulk Solutions

Fresenius Kabi Bulk Solutions are used in various healthcare settings to support apheresis procedures. Anticoagulant and sodium chloride solutions are distributed for blood component collections.

Color coded, heat stamp labels

Suitable for use with multiple procedures

Flexible, PVC plastic containers with easy connect/disconnect ports

Sterile, non-pyrogenic solutions

# Bulk Solutions

The labels for the Fresenius Kabi Bulk Solutions are color coded for clear differentiation between solutions.

The Bulk Solutions are stored in flexible, PVC plastic containers with heat stamps, allowing for full visibility to the solution.

The solutions are suitable for use in Cell Therapies, Blood Banking, and Therapeutic Apheresis.

Each Solution is delivered sterile and non-pyrogenic.
