

As of 10/25/24

[Product Certificates](#)

[X4R5720 Product Insert \(Bioflex - BI\)](#)

[X4R5720 Product Insert \(Sepacell - SE\)](#)

A new leukoreduction filter will be incorporated into the Alyx X4R5720 kit. Visual indicators (BI or SE) will be added to the Master Carton box and to the Red Cell Storage Container label to identify the kits produced with Bioflex RC XL (BI) filters versus Sepacell (SE) filters. Please reference the list below for finished good lots produced with Bioflex (BI) or Sepacell (SE) filters.

For further questions, please reach out to your Fresenius Kabi representative.

<u>Manufacturing Date</u>	<u>Code</u>	<u>Lot</u>	<u>Filter</u>	<u>Label Indicator</u>
4/29/2024	X4R5720	FN24D29011	Bioflex	None
